Therapy programs at Renewal Therapy Center are tailored to each individual's unique goals, utilizing state-of-the-art, evidence-based techniques and equipment to get you back to your best. Your comprehensive plan may also include techniques such as ultrasound, shortwave diathermy, gentle electrical stimulation, infrared light, biofeedback driven dysphasia therapy, and LSVT Big and Loud Training.

Patients can practice activities of daily living in an environment similar to their home in our Occupational Therapy Suite, and integrate the outdoors into their rehabilitation program with our first-in-the-area Therapy Nature Walk. When you need outpatient therapy services, think Renewal Therapy Center at Clark-Lindsey.
