

Clark-Lindsey's Renewal Therapy Center and Meadowbrook Health Center combine to offer the area's premier short-term inpatient therapy services. Our research-based, quality driven clinical programming is designed to meet each individual's unique needs, and can help improve mobility, restore function, reduce pain, and prevent future injury. Inpatient services include physical, occupational and speech therapy.

Our dedication to person-centered care means a commitment to providing functional and meaningful therapy and nursing services that correlate with each individual's goals. Our interdisciplinary health team works closely with you and your family to ensure our program is comprehensive and meets your needs, including: medication and disease management, care giver education, and a comprehensive home assessment.

Our experienced clinical staff provides therapy utilizing state-of-the-art equipment in our new therapy gym, occupational therapy suite and first-in-the-area therapy nature walk, allowing you to fast track your recovery goals.

Consistency is key when it comes to your health. Upon discharge from our inpatient therapy program, outpatient therapy options are available to compliment your inpatient experience. Outpatient therapies include: physical, occupational, speech and aqua therapy.
