

Our Clients Say it Best

"There is always someone on call that would answer my questions. Just knowing I had support from atHome allowed me to do gardening and go out."

-Dee, wife of client

"What surprised me the most about atHome was the ease it fit into my life."

-David, client

Home Care & Home Nursing

*Your path to
independence starts...
atHome!*

Home Nursing

Our comprehensive, skilled nursing staff can provide:

- Preventative care nursing assessments
- Coordination with client, medical providers, and pharmacy services to develop personalized plans of care.
- Assistance with transportation for appointments and navigating insurance
- Specialized services such as IV infusion, in-home lab draws, g-tube maintenance, wound care, and more!

Traditional Home Care

Our friendly, in-home care professionals can provide services such as:

- Meal preparation
- Medication reminders
- Light housekeeping & laundry
- Transportation & accompaniment to appointments
- Bathroom & hygiene assistance
- Companionship

Caresharing

A innovative program that changes the home care norms.

Caresharing provides assistance with most tasks that traditional caregiving can offer. However, caregivers come in short, task-based visits throughout the day, so you have control over how often you receive care.

This is one of the best ways to receive assistance with tasks, while maintaining your independence and autonomy.
